# Please join us as a sponsor for the 1st Annual Security Film Festival

The Intersection of video, technology and security

---

# What is the Security Film Festival?

The Security Film Festival is a three-day showcase of films dedicated to the transformative power of video, technology, and security.

Our event serves as a catalyst for innovation, bringing together the security industry leaders, filmmakers, and enthusiasts to explore the latest films, advancements in technology, and discuss critical issues.

By partnering with us, you'll be supporting the men and women storytellers of the military, law enforcement, videographers, creators and other security professionals who protect our nation and communities, while also positioning your brand as a leader in security solutions. Acclaimed by filmmakers and audiences alike for its exceptional programming and engaging events, our festival offers more than just films.

Following each screening, we host moderated discussions featuring filmmakers, film subjects, actors, and industry experts. These discussions provide a unique opportunity for attendees to delve deeper into the films' themes, share their insights, and connect with like-minded individuals.

---

# Co-hosted Event

New York City and Washington DC will co-host the Security Film Festival on a rotating basis, with the event held in each city every other year. The 1st annual event, however, will be held online. Here are some of the benefits of hosting our 1st Security Film Festival online:

- **Global Reach:** An online festival can attract attendees from all over the world, expanding your potential audience and impact.
- **Accessibility:** A virtual festival eliminates the need for attendees to travel, making the event more accessible to people with disabilities or limited resources.
- **On-Demand Access:** Attendees can watch films live and/or participate in events on-demand, at their own convenience.
- **Data Collection:** Online platforms can collect valuable data about attendees, such as their viewing habits and preferences, which can be used to improve future events.

# Estimated Metrics for 1st Security Film Festival

Films submitted (56), screened (30), training & education sessions (10), tickets issued (500), and e-mail subscribers (4k).

# Eight Exciting Sponsorship Opportunities
